

TRUBLE THE MINING CAMPS

Special Governor Appointed by the Czar to Better Control the Situation.

COSSACKS USED WHIPS

IMPERIAL FAMILY GOES TO KRASNOYE-SELO.

St. Petersburg, Aug. 14.—In view of the representations of the foreign mining interests in the Donetz basin with regard to the seriousness of the situation at Uzovka and elsewhere, the government has erected a special general governorship in order to be the better able to control the situation, and has taken the unprecedented step of creating a special advisory commission of mining representatives to act in concert with the new official of the district. His jurisdiction embraces Yakaterinoslav province, the southern part of Kharkov and parts of the Don Cossack territory.

The step is comparable to the creation of the much abused "satrap" to deal with the agrarian disorders in central Russia last autumn, of which the assassinated General Sakharoff was one of the governors, and intimates that the government considers the situation to be equally serious. Disorders and collisions with troops continue. At Uzovka a meeting today was dispersed by Cossack whips.

On account of attempts to continue revolutionary agitation at Cronstadt, Commander Adlerberg today published an order forbidding the sale of liquor after midnight except on pass, closing restaurants and saloons at 10 o'clock, and forbidding altogether the sale of liquor on Sundays and holidays. Adlerberg was promoted to a lieutenant generalship as a reward for the suppression of the mutiny.

RISKS HIS LIFE.

Emperor Goes to Krasnoye-Selo to Witness the Maneuvers.

St. Petersburg, Aug. 14.—Despite the attempt on the life of the Grand Duke Nicholas on August 10 at Krasnoye-Selo, the emperor, accompanied by his entire family and the major portion of the court, has gone to Krasnoye-Selo to witness the maneuvers of the guards. Six additional guard regiments have come to the camp from St. Petersburg and the most rigid precautions have been taken to protect the safety of the emperor during his stay at Krasnoye-Selo. The railroad station at St. Petersburg is heavily guarded and no civilians are allowed to leave there for Krasnoye-Selo except after being fully identified. A grand review is scheduled for August 18, after which the imperial family will go to Tsarskoe-Selo instead of returning to Peterhof, although some of the papers report that it is the intention of the imperial family to immediately go by sea to Livadia in the Crimea and spend the autumn there.

Major William J. Gibson, the American military attaché, has gone to Krasnoye-Selo, at the imperial invitation, to attend the maneuvers.

The maneuvers today came to an early close in order to permit the officers to attend the races held under imperial patronage this afternoon. Tonight there was a gala theatrical ballet at which the members of the imperial family were present.

Drastic Order Issued.

Moscow, Aug. 14.—Governor General Kaibars today issued an edict decreeing that employers identify strikers for ten days the latter had been on strike would henceforth incur penalties for so doing, including the closing of their factories. The same edict enjoins the inhabitants from whom money has been extorted by anarchists under the pretext of assassination to report the facts to the police, failing which they will be considered to be the protectors of the criminals.

Reports from the southern and southwestern parts of the interior testify to the spreading of peasant disorders. The troops passively obey all orders orders but refuse to fire on the peasants.

Jubilant Over Capures.

St. Petersburg, Aug. 14.—The authorities attach great importance to the capture of revolutionists at Moscow and vicinity. They believe they have broken up the headquarters of the military fighting organization and arrested its leaders. In addition to seizing their clandestine printing establishment and a large supply of bombs and explosives including ship powder, the authorities secured elaborate plans which were to be used in the event of an uprising.

Sympathy and Protest.

Stavropol, Aug. 14.—A large meeting of sympathy and protest was held here yesterday against the arrest and trial by court-martial of M. Onipko, who represented this district in the outlawed parliament. When he was arrested at Cronstadt after the mutiny, a plan of the fortress of Cronstadt was found on his person, but the drawing is said to be crude and of no strategic value.

Suburb Ablaze.

Nischni Novgorod, Aug. 14.—The suburb of Gorkovka and the fire spreading, but as yet the great fair buildings are not endangered. It is thought a number of persons have lost their lives in the conflagration. One body has already been found.

One Burned to Death.

Odessa, Aug. 14.—Two political prisoners here saturated their mattresses with petroleum oil and set fire to them. One man was burned to death and the other was rescued after a brief struggle. Beginning today, a special military guard will be attached to all trains to prevent robberies.

Premature Explosion.

Yakaterinoslav, Aug. 14.—A bomb exploded today in the house of a workman where there was a revolutionist laboratory. Two of the inmates were seriously wounded.

Professor Tyler of Amherst college, said recently: "A man can live comfortably without brains; no man ever existed without a digestive system. The dyspeptic has neither faith, hope nor charity." Day by day people realize the importance of caring for their digestion; realize the need of the use of a little corrective after overeating. A corrective like Kodol For Dyspepsia. It digests what you eat. Sold by Chas. Van Dyke, 280 Main street.

The camp will continue for sixty days and the office will have the patronage of about 500 officers and men. Nelson C. Puckett, the railway agent at Dale Creek, has been appointed postmaster and the military camp will appoint mail messengers.

It is expected this method will be followed hereafter in serving temporary camps with postal facilities where the camps are distant from an established office.

It is said by the police that Vice went to Honduras and that following the conflagration at San Francisco last year, he returned here on the pretext of being a war correspondent. Today's warrant was sworn to by E. M. Twigg, city passenger agent of the Union Pacific. Detectives expect to soon effect the arrest of Vice.

DEATH CLAIMED FOR TWO VETERANS

Pathetic Incidents of the Encampment of the Grand Army at Minneapolis.

BIG PARADE OCCURS TODAY

FIGHT FOR COMMANDER GROWING BITTER.

Minneapolis, Aug. 14.—Despite a somewhat hot and sultry day, the reunions of the various regiments present planned for today were carried through with great success. There was not a floor in any of the hotels nor hall in the city which did not hold the survivors of some organization that was in the field during the war. Some of the gatherings were largely attended, but others were confined to not more than a half dozen of the original regimental members. The reunions in the majority of cases did not last for any length of time and the veterans were soon on their way to visit some of the homes of the first men of the city. Receptions were also held by members of the Ladies of the Grand Army, the Woman's Relief corps, and other organizations of a similar character, all of them keeping open house throughout the day.

Campfire in the Evening.

The feature of the evening was a large campfire held in the auditorium, which packed this structure. The fire was made by Governor Johnson, Commander-in-Chief Tanner, R. B. Brown of Zanesville, O., a candidate for the honor of being the next commander of the Grand Army, and a number of others. An address of welcome was made by some prominent organization of national scope now attending the encampment, and a response in behalf of the first men of the citizens of Minneapolis for the manner in which the members of the Grand Army have been entertained.

A parade of the Topeka Flambeau club, which was held in the evening, was a most attractive feature of the program.

Answered Last Roll Call.

Two more members of the Grand Army died today, making thirteen since the commencement of the present encampment. J. H. Burke of Burlington, Kan., fell dead while standing in front of the Grand Army building. Death was caused by apoplexy induced by the heat. The other death was that of a former member of the First New York Dragoons, who has been visiting relatives in the city for some time. Stankins was knocked down by a horse, which was driven rapidly around a corner just as he was about to take a street car, and died soon after.

Bitten Fight for Commander.

The fight for commander-in-chief became active and bitter today. Many copies of a circular attacking the war record of Captain P. H. Coney of Kansas, a prominent candidate, was handed about the city. The circular was not signed and Captain Coney decided that the attack was so utterly baseless as to be almost beneath his notice. He contented himself by giving it a simple denial and referring all who desired to know the truth to his war record to the history of the Fifty-fourth New York Infantry.

It is the intention of the members of the Ladies of the Grand Army to offer a resolution in the business meeting of the Grand Army urging the purchase of McLean house at Appomattox for the purpose of converting it into a national museum. It is said that the plan has met with favor on the part of the Confederate veterans, who have offered to aid in the project. Miss Nellie Underwood and Mrs. Bellamy of the Ladies of the Grand Army are pushing the plan.

Grand Parade Today.

The great parade is to be held tomorrow and a holiday will be declared throughout the city. It is expected that about 15,000 men will take part. The weather prediction for the day is "Probable showers and cooler. The parade is scheduled to start at 10 o'clock and the line of march will be about two miles in length.

The first move toward securing the national encampment of 1907 was made today by the New York delegation, which announced its intention of getting it, if possible, for Saratoga. Although the chief official functions of the day were carried on inside of the auditorium and the various headquarters in different parts of the city, the greatest enjoyment of the old soldiers and their people was found in the downtown streets, where dozens of military concerts were given by visiting bands. Stands had been erected in the center of a number of the principal streets and in addition to the bands, which were stationed on these, many others were placed at the corners, where, surrounded by thousands of people, they played a constant succession of national airs and military marches. Half a hundred thousand people were gathered in the streets to listen to the music, which was continued until nearly midnight.

Many Heat Prostrations.

The excessive heat today caused a number of prostrations among the visitors and several of the emergency hospitals were completely filled. Among the visitors who collapsed today because of the heat, but none of whom is expected to die, are Wm. Greer, Cameron, Ia.; Wm. Gordon, Kansas; and Pettibone, Springfield. In addition to these cases, many were treated at the hospitals who were simply exhausted as the result of walking too far in the city streets in the heat.

Special provision is being made tonight to care for all old soldiers who may be prostrated during the parade tomorrow, the anticipation being that many will be compelled to fall out unless the weather should be cooler than that of today.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years, and was taking two bottles of Foley's Kidney Cure. I feel better than I have for twenty years, although I am now 91 years old. F. J. Hill Drug Co., the never substitutes."

New York, Aug. 14.—J. C. Stubbs said today that there was no truth in the report that he is going to leave the Harriman system or take up railroad work in London. Mr. Stubbs said he was going to stay with the Harriman system "until he was kicked out."

He said also that as far as he knew Mr. Sprague is not going to succeed him as traffic director.

From another source it was learned that Mr. Sprague will leave the Harriman system to go with another railroad company, but the name of the company was not disclosed.
